### **My Life...My Story...**

Darryl has lived with his grandparents nearly his entire life. He says being the only kid living at his grandparents' house is boring and he resents his grandparents for all their rules. Darryl's aunt, who has five children, lives in the neighborhood. Darryl spends a lot of time with his cousins hanging out at their house and they often go to the library together and participate in some of the teen activities there. "I wish I could live with my aunt. She always takes time to listen to me."
